App review request for 1to7media.in (app ID 1569291041247830)

Downloaded on October 19, 2026, 11:58 PM PDT

Permission usage

[instagram_business_basic] Tell us how you're using this permission or feature

1. Functionality requiring this permission: 1to7 Media (https://users.1to7media.in) is an influencer marketing and creator campaign collaboration platform. The core functionality that requires instagram_business_basic is Creator Identity & Professional Profile Verification. 2. How the permission enhances functionality and how integration functions: When creators connect their Instagram account via Instagram Login, our server queries the Instagram Graph API (/me endpoint) for: - username - account_type - profile_picture_url - followers_count - media_count - biography This integration functions to: a) Verify that the creator owns an authentic Instagram Creator or Business account. b) Automatically populate their verified handle, profile picture, and live follower metrics on their Creator Dashboard and Campaign Application cards. c) Provide brand campaign managers with verified statistics so they can hire authentic influencers for paid brand promotions. 3. How it enhances the end-user experience: It eliminates fraud, impersonation, and manual paperwork. Creators do not have to upload manual screenshots of their follower counts or manually type stats. Profile metrics stay authenticated and updated automatically. 4. Reviewer Testing Instructions & App Credentials: - App URL: https://users.1to7media.in/login - Test Mobile Number: 8875912020 (Note: This test account is pre-verified in our database so international Meta reviewers do NOT require an Indian SIM or SMS OTP). Step-by-Step Test Walkthrough for Reviewer: 1. Open https://users.1to7media.in/login 2. Click "CONTINUE WITH INSTAGRAM". 3. In the mobile field, enter the test number: 8875912020 and click Continue. (It will immediately advance to the Instagram authorization step without OTP). 4. Click "AUTHORIZE WITH INSTAGRAM". 5. Sign in with your Meta/Instagram Creator test account and approve the permission. 6. You will be redirected to the Creator Dashboard at https://users.1to7media.in/dashboard where the linked Instagram username, profile picture, and follower count are directly displayed on screen. 5. Demonstration Video & Backup Link: - Direct Screencast File: Attached below. - Cloud Backup Link: https://drive.google.com/file/d/1-bMBxoDCWQeHwDKjq0CRYteq7Lb62DF6/view?usp=sharing

[instagram_business_basic] Provide a detailed step-by-step video walkthrough of how your app will use this permission or feature so we can confirm it is used correctly and does not violate our policies.

- video

[instagram_business_basic] The instagram_business_basic allows your app to read an Instagram Business account profile's info and media. The allowed usage for this permission is to get basic metadata of an Instagram Business account profile, for example username and ID. You may also use this permission to request analytics insights to improve your app and for marketing or advertising purposes, through the use of aggregated and de-identified or anonymized information (provided such data cannot be re-identified).

If approved, I agree that any data I receive through instagram_business_basic will be used in accordance with the allowed usage.

Data handling

processor-0. Do you have data processors or service providers, including your own companies, that will have access to the Platform Data that you obtain from Meta? Data processors or service providers are separate entities that, on your behalf, process the Platform Data made accessible to you in order to provide you with a service. Please provide the names of any processors that will have access to the Platform Data made accessible to you through the requested permissions and features. “Platform Data” is any data that you receive from Meta (e.g., Meta user ID, email address, profile picture, Meta API user access token, and app secret).

No

responsible-1. Who is the person or entity that will be responsible for all Platform Data Meta shares with you? Please provide the name of the legal entity that will control the data (i.e., determine the purposes and means of processing the data) made available to you by Meta through the requested permissions and/or features. This could be a natural or legal person, a public authority, an agency or other entity. In some regions this is called a data controller.

1to7 Media

responsible-2. Select the country where this person or entity is located.

India

requests-3. Have you provided the personal data or personal information of users to public authorities in response to national security requests in the past

12 months? This does not include requests related to search warrants or court orders associated with criminal investigations. Personal data or personal information is any data you receive from Meta that relates to an identified or identifiable person.

No

requests-4. Which of the following policies or processes do you have in place regarding requests from public authorities for the personal data or personal information of users? Check all that apply.

- None of the above.

Web reviewer instructions

Provide instructions for accessing the app so we may complete our review. Explain how to navigate to the app, and provide instructions for testing.

1. Open https://users.1to7media.in/login 2. Click the "CONTINUE WITH INSTAGRAM" button. 3. Enter our pre-verified test mobile number: 8875912020 and click Continue. (This account is pre-verified, so NO SMS OTP is required for international reviewers). 4. On the next screen, click "AUTHORIZE WITH INSTAGRAM". 5. You will be redirected to Instagram OAuth. Sign in with your Instagram Business/Creator test account and approve the "instagram_business_basic" permission. 6. Upon approval, you will be redirected to the Creator Dashboard at https://users.1to7media.in/dashboard where the linked Instagram profile handle, account type, and follower metrics are loaded and verified.
